

4 Years at Work

Changing Lives
Since 2021

Our People

Meet Graciela and Laura – part of the Sula team working at the shelter for 1.5 years.

One of the hardest things for any rescue is to find long term employees. The work is gruelling and relentless, our location is remote. Those ladies were only 16 years old when they started to work at the shelter. Laura and Graciela greet everyone with a smile, even on the toughest days, even when the heat makes their job so much harder. Those amazing young women clean kennels, grind meat, feed dogs, exercise them, scoop poop and never stop smiling. Their hard work supports their family.

   Thank you!

Get Involved

Would you like to join our amazing volunteer team in Canada?

We need volunteers to foster dogs, assist in airport runs, collect crates or donations, and for someone with space to store them until flight supply angels take them to us in Puerto Vallarta.

If you are interested, please go to:

Little Littibu

Then and now - what a difference 8 days make...

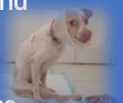

A Happy New Beginning for Mr. Kipling

Mr. Kipling was brought to us after somebody witnessed him being violently beaten. He was left unable to move, and in shock. X-rays revealed 2 broken legs in 2 places, and an old spinal injury from previous trauma.

With the help of donations from our wonderful supporters, and Mr. Kipling's brave spirit we set out a plan for his journey to recovery. Unfortunately, both legs had to be removed to give him a chance at the best quality of life, and our vet's expertise has been invaluable.

As a double amputee our little fighter recovered in no time, and amazed us with his resilience, heart, and a will to live. He loves to run on two good legs and play tug of war.

On February 07, 2024, escorted by flight angel Cristina, Mr. Kipling flown to his forever home in Toronto, to join our previous adopter Emma and live happily "forever" after.

Dog of the Month - Choclatine

- 1 year old (22/02/2024)
- Mexi-mix, male.
- Beautiful chocolate coat, and soulful amber eyes.
- Good with kids.
- Gets along very well with other dogs.
- Very playful, social butterfly.

Littibu Story

- Littibu's skin is in bad shape, she has a very bad case of mange. Whilst mange is very unpleasant for a dog, it is usually quite easy to treat, unfortunately for Littibu, people had been walking past her for so long, her skin now has open sores, which are infected.
- We are hoping in a few weeks to be able to show you the real Littibu, and hoping that when she is better, we can find her an amazing home, and give her the life she deserves.
